i got a rash and my cousins stole my juiceboxes

pressures are measured in millimeters of mercury (mmHg), but we express blood pressure verbally as the systolic pressure "over" the diastolic pressure

what i'm saying is, i know it was my choice to read, but i in fact thought youd have something fascinating to express

in one generation, south korea has gone from a society where sons are prized to one where daughters are just as eagerly received

as well as suppressing the appetite, hoodia causes people to think about food far less often, which growth factor 9 stack

so i would rather just leave it open and then after the season relax a little bit, unwind and see where your mind takes you
